Why Choose the Auckland Region?

Auckland offers Aotearoa's three largest districts with the greatest range of subspecialties and national clinical leaders with a strong tradition of clinical education and teaching support with protected training time since 1999.

Attractions to the Region

Tāmaki Makaurau Auckland is also known as the "City of Sails." Enjoy the vibrancy of an urban lifestyle alongside the tranquil settings of parks and beaches. With a population of 1.71 million people, Auckland has a bustling centre with activities galore, from international concerts and sporting events to cultural festivals and celebrations. Auckland is the largest Polynesian city in New Zealand with a dynamic mix of Māori, European, Pacific Island and Asian cultures.

Uniquely set between two harbours, and numerous islands in the Hauraki Gulf, Auckland offers dozens of beaches to enjoy within minutes of the city – or you can venture a little further afield to sail the harbour or explore the wild West Coast surf beaches. Whether you are looking for extreme adventure or a quiet morning coffee and a browse in the local market, there's always something to do in Auckland.

With a temperate climate and plenty of sunshine, Auckland enjoys long warm summers and relatively mild winters. Enjoy an outdoor lifestyle all year round with after work and weekend social and competitive sports clubs or build a deck and enjoy barbeques with your new friends!

- CBD and bustling waterfront – restaurants, cafes, pubs and clubs
- Community events – free outdoor cinema, music events, farmers markets
- Wide variety of ethnic food, local wine, beer and culture
- Access to harbour islands, e.g. Waiheke and Rangitoto
- Museum, art gallery, Sky Tower, theatre

Selection Criteria

Appointment to a PGY1 position in the Auckland Metro region will be determined by the following

- References submitted online via ACE
- Consideration of ACE scoring
- PVTC Selection and Allocation Policy including preferential pathways and Fit for Purpose Practitioner model (please see below overview):

Fit for Purpose Practitioner Model

The 'Fit for Purpose Practitioner' model will be used to assess all applications, the model has five main domains as outlined below:

- **Clinical Performance:** Evaluates applicant proficiency and competence in clinical practice
- **Academic Performance/Achievement:** Examines applicant academic performance and achievements
- **Professional/Team Approach:** Assesses applicant ability to work effectively within a professional team environment
- **Personal Strengths:** considers the personal qualities and strengths of applicants relevant to the role of a medical practitioner.
- **Equity and Cultural Safety:** considers the applicants knowledge and performance in health equity and cultural safety.

Auckland Region Cover Letters Auckland Region Cover Letters

When writing your cover letter, please ensure it is a maximum of 1 page long and addressed to the "Hiring Manager" or "To Whom it may Concern" as do we receive a lot of applications and it may be reviewed by multiple people from the Prevocational Training Committee (PVTC) ranking committee.

Positions Available

The number of positions expected per district will be released on the ACE RMO website during 2024.
