Why Choose the Auckland Regional DHB's?

Auckland offers the largest DHB's with the greatest range of sub specialities and national clinic leaders with a strong tradition of clinical education and teaching support with protected training since 1999.

Attractions to the Region

Auckland, known as the "City of Sails" enjoys the vibrancy of an urban lifestyle alongside the tranquil settings of parks and beaches. With a population of 1.3 million people, Auckland has a bustling centre with activities galore, from international concerts and sporting events to cultural festivals and celebrations. Auckland is the largest Polynesian city in New Zealand with a dynamic mix of Māori (indigenous people of New Zealand), European, Pacific Island and Asian cultures.

Uniquely set between two harbours, amongst 11 extinct volcanoes and numerous islands in the Hauraki Gulf, Auckland offers dozens of beaches to enjoy within minutes of the city - or you can venture a little further afield to sail the harbour or explore the wild West Coast surf beaches. Whether you are looking for extreme adventure or a quiet morning coffee and a browse in the local market, there's always something to do in Auckland.

With a temperate climate and plenty of sunshine, Auckland enjoys long warm summers and relatively mild winters. Enjoy an outdoor lifestyle all year round with after work and weekend social and competitive sports clubs or build a deck and enjoy barbeques with your new friends!

- CBD and bustling waterfront – restaurants, cafes, pubs and clubs
- Community events – free outdoor cinema, music events, farmers market
- Wide variety of ethnic food, local wine, beer and culture
- Access to harbour islands, e.g. Waiheke and Rangitoto
- Museum, art gallery, Sky Tower, theatre

Selection Criteria

- CV – Recommend key information from cover letter to be in the personal summary of CV
- Optional Cover Letter
- References submitted online via ACE
- Consideration of ACE scoring
- PVTC Selection and Allocation Policy including preferential pathways and Fit for Purpose Practitioner model
