Why Canterbury DHB?

There has never been a better time to consider a career with the Canterbury District Health Board. We are committed to providing RMOs with an excellent employment and training environment in a city with abundant recreational attractions. You could be part of our team of professionals providing world class health care right here!

We are in the midst of a major rebuild of our facilities. Our latest new facility – Waipapa (Acute Services Building at Christchurch Hospital) - opened in November 2020 and the re-building of mental health facilities at Hillmorton Hospital has recently commenced.

In addition to new clinical facilities, we are fortunate to have Manawa, our new, multi storey, state of the art, education and training facility located on the Christchurch Hospital campus. Manawa is a joint venture between the University of Canterbury, ARA Institute and the Canterbury District Health Board.

A career with us means working for an organisation committed to providing the best health care possible to the people of Canterbury. We provide excellent training opportunities for RMOs and you will gain extensive experience in a wide variety of specialties and settings.

Attractions in the Region

Outside work, you can watch the new city taking shape while you enjoy the variety of theatre, music and sports events on offer throughout the year. Christchurch's new Metro Sports Facility is set to open in 2022 and is located close to the Christchurch Hospital Campus.

Christchurch is also the place to be if you are looking to enjoy an outdoor lifestyle. The mountains are within an hour and a half's drive from the centre of the city and the ocean is only twenty minutes away! We have lovely beaches on our doorstep and are close to a great variety of destinations for day trips and short getaways.

Come and join us!

Selection Criteria

- Mandatory Cover Letter and CV
- Consideration of ACE scoring (for PGY1 applicants)
- Priority for those wanting to return from smaller centres to a tertiary centre
- References from supervisors
- Commitment to living and working in Christchurch
- Professionalism

Late Starts

Late starts for PGY1s may be accommodated at the discretion of our DHB. Please note that our ability to facilitate late starts is dependent on various factors and may not be able to be confirmed until later in the year.

Regular House Officer Teaching

- Weekly RMO Teaching on Wednesday afternoons and Thursday lunchtimes for PGY1s and PGY2s
- RMO Grand Round once a month
- Skills Sessions
- Case Study Presentations
- Resilience and Wellbeing Sessions
- Annual Vocational Pathways Event

Rosters

Rosters vary across the specialities however to give you an idea, most consist of

- 1 – 2 long days per week (0800-2300)
- 1 in 7 weekends (0800-2300 each weekend day)
- Night duty in blocks of 3 nights and four nights, each at an approximate frequency of 1:7

Roster frequencies may vary across the Services, however most of the rosters work to a predictable template, to help you to plan your life outside work.

Some services have their own specific house officer out of hours rosters, while other services may participate in combined out of hours rosters.

Out of hours, house officers are supported by the SMO and registrar on their team, as well as by the Clinical Team Coordinators (CTCs). CTCs are senior nurses, usually with experience in ED or ICU, who are able to offer advice, triage calls and ensure that everyone shares evenly in the work to be done.

There is no need to feel alone out of hours, as help is always close at hand.

PGY1 Average Salary 2022

House Officer salaries are paid in accordance with the RMO Multi Employer Collective Agreements (MECAs) and salaries usually range between \$76,599 and \$102,900 per annum

Medical Education and Training Unit (METU)

The Medical Education and Training Unit team facilitates your orientation and the on-going teaching programme, as well as ensuring that you meet your Medical Council of New Zealand requirements. The METU team includes 11 Prevocational Educational Supervisors from a wide variety of specialties who are available to provide you with regular support and guidance.

Resident Doctors' Support Team (RDST)

The Resident Doctors' Support Team at the CDHB is just that: we are here to support you in your employment and training. We deal with the administrative side of your employment, such as recruitment, rostering and leave management.

METU and RDST are co-located and if we can't answer your query, we'll find someone who can!
